

## How does Lily Hospice give back?

In loving honor of every new patient that chooses Lily Hospice to provide their care, a donation will be made to a local charity.

*"Just as we were born into this world not knowing what to expect, we leave this world not knowing what to expect. Yet, one thing we do know is that there will always be someone there to love us."*

*-Sandy, Lily Hospice Volunteer*

Thank you for trusting us with your care.

## Why Choose Lily Hospice?

Lily Hospice is a family owned and operated group that provides compassionate care to those who are experiencing life-limiting illnesses. We help by providing comfort and fulfillment through quality of life during the final stages of advanced illness.

At Lily Hospice, we focus on the whole person, customizing our care to meet every individual's specific needs. We involve family and caregivers to make the experience more inclusive rather than isolated; and we emphasize the quality of life, instead of the duration.

It is our belief that the transition should be peaceful, comfortable, and dignifying.

## What is hospice?

Hospice is specialized health care for patients with advanced illnesses who are nearing the end of their lives. This comfort-focused care aims to improve patients' quality of life once they have elected to no longer seek curative treatment.

Hospice provides pain and symptom management in your home wherever that may be. In addition, hospice offers a variety of support services for patients and their families; including education, emotional and spiritual support, help with financial issues, help with the patients' personal care and hygiene, and respite care for caregivers.

## What services are provided?

- Professional highly trained staff
- In-home caregivers
- 24/7 call line
